January 8, 2013

Greetings!

At the beginning of each New Year, our thoughts often are drawn to making resolutions. Generally, we think about losing weight or otherwise committing to healthier habits, but how often do we think of resolutions that affect our communities?

This year, amid higher taxes and other woes, I encourage you to resolve in some concrete way to benefit your community. As you teach your literacy students, perhaps you consciously decide to connect more on a personal level with them, to no longer be only teacher, but also friend.

But wait, you think, I have boundaries and cannot cross personal with professional. I challenge you to consider what it would be like if on the evening news, instead of seeing another school shooting we heard about a teacher inviting a student and her family to move-in during a financial difficulty.

Isn't this the world you want to live in? Will you take a moment to think about what resolution you can make that will make a real impact on our community?

Warmly,
Jennifer Rollins
Community Outreach Coordinator
